## INTRODUCTION

This report presents information from the 1971 Census of Canada, for persons 15 years and over, who worked in 1970, showing average 1970 employment income, occupation, level of schooling and sex. Data are shown for the provinces. Space and printing considerations necessitate the use of occupational codes rather than titles in this table. For the unit group titles corresponding to these 4-digit codes, see Appendix report, Catalogue No. 94-770.

Average income figures in this report are calculated only for persons reporting employment income.

**Comparability with 1961 data:** Coverage in the 1961 Census was from a 20% sample of non-farm private dwellings only, and was exclusive of the Northwest Territories. In 1971 coverage was extended to include farm and collective dwellings and the Northwest Territories. The data from the two censuses are therefore not directly comparable.

The information in this report was collected on a 33 1/3% sample basis. Information on the sample and the weighting system can be found in the introductory report to this volume (see Catalogue No. 94-759).

The 1971 Census figures in this report have been subjected to a confidentiality procedure to prevent the possibility of associating small figures with any identifiable individual. The particular technique used is known as "random rounding". Under this method, all last or "unit" digits in a table (including all totals) are randomly rounded (either up or down) to "0" or "5". This technique provides the strongest possible protection against direct, residual, or negative disclosures without adding any significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Also, minor differences can be expected for corresponding totals and cell values in various census reports.

**Note:** Aggregate income calculated from these data should be used with caution as averages were calculated prior to rounding.

Ce bulletin présente des renseignements du recensement du Canada de 1971 en ce qui concerne les personnes de 15 ans et plus qui ont travaillé en 1970, par revenu moyen de l'emploi en 1970, profession, niveau de scolarité et sexe. Les données sont indiquées pour les provinces. Des considérations d'espace et d'impression ont nécessité, dans ce tableau, l'utilisation de codes de professions plutôt que des titres. Pour les titres des groupes de base correspondant aux codes de professions à quatre chiffres, voir Appendice, n° 94-770 au catalogue.

Dans ce bulletin, le revenu moyen n'est indiqué que pour les personnes ayant un revenu de l'emploi.

**Comparabilité avec les données de 1961:** Au recensement de 1961, les données étaient fondées sur un échantillon de 20 % des logements privés non agricoles seulement et excluaient les Territoires du Nord-Ouest. En 1971, le champ d'observation a été étendu aux logements agricoles et aux logements collectifs, ainsi qu'aux Territoires du Nord-Ouest. Les données des deux recensements ne sont donc pas directement comparables.

Les renseignements de la présente publication ont été recueillis sur un échantillon de 33 1/3 %. On trouvera des renseignements sur l'échantillon et le système de pondération dans l'introduction de ce volume (voir la publication n° 94-759 au catalogue).

Par souci de confidentialité, les chiffres du recensement de 1971 publiés ici ont été soumis à une formule qui interdit la possibilité d'associer des chiffres de faible importance à une personne reconnaissable. Cette technique particulière s'appelle l'"arrondissement aléatoire". Grâce à cette méthode, tous les derniers chiffres, c'est-à-dire les chiffres des unités (y compris tous les totaux) des tableaux sont arrondis de façon aléatoire (vers le haut ou vers le bas) à "0" ou à "5". Cette technique assure la protection maximale contre la divulgation directe, négative ou par recoupements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils ne sont pas nécessairement égaux à la somme des chiffres individuels arrondis dans les distributions. De plus, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences.

**Nota:** Les chiffres du revenu total fondés sur ces données doivent être utilisés avec circonspection, car les moyennes ont été calculées avant l'arrondissement.

## DEFINITIONS

**Level of schooling:** Refers to the highest grade or year of elementary school, secondary school or university ever attended, excluding post-secondary non-university education. Individuals may have completed vocational training, either apprenticeship or other full-time courses, in addition to the schooling shown.

**Employment income:** Employment income refers to the total income received in 1970 as wages and salaries, net non-farm business or professional income (gross receipts minus expenses of operations) and net income from farm operations (gross receipts minus expenses of operations including depreciation).

**Occupation:** Refers to the specific kind of work the person did on the job, as determined by the reporting of the kind of work, the description of the most important duties and the job title. Data relate to the respondent's job in the week prior to enumeration if he or she had a job during that week or to the job of longest duration since January 1, 1970 if not employed in that week. Persons with two or more jobs during the reference week were asked to give the information for the one at which they worked the most hours.

**Occupational classification:** A classification system based on the Canadian Classification and Dictionary of Occupations was used in the 1971 Census. Unit groups to which occupations are classified in this system were formed to have a "desirable degree of homogeneity with respect to kind of work performed". Although work performed may be influenced by a particular industrial process, the classification of individuals by their kind of work is theoretically independent of the nature of business of the establishment in which it is carried on. In most cases, self-employed individuals reporting their kind of work are classified to the relevant unit group in the same fashion as employees.

For further information on the classification, including definitions of the individual unit groups, see "Occupational Classification Manual, Census of Canada, 1971", Volume I, Catalogue No. 12-536. For the occupational titles corresponding to the 4-digit unit group codes shown in this table, see the Appendix report, Catalogue No. 94-770 or the Occupational Classification Manual itself.

**Note: Comparability with previous censuses:** The 1971 occupational classification differs considerably from previous ones. It is the result of a complete revision of earlier classifications. Consequently, comparisons with earlier censuses cannot be made at this time. A special trend report will be published at a later date.

The estimates of the mean square error for the characteristics covered in this report were not available at the time of publication. They will be available in the introductory report to this volume (Catalogue No. 94-759). Those users requiring this information prior to the release of the introductory report should contact the Census User Inquiry Service.

## DÉFINITIONS

**Niveau de scolarité:** Dernière année d'études primaires, secondaires ou universitaires, sans la formation postsecondaire, non universitaire. À remarquer qu'on peut avoir fait un cours professionnel (apprentissage ou autre cours à plein temps) en plus de la scolarité indiquée.

**Revenu de l'emploi:** Le revenu de l'emploi est le revenu total reçu en 1970 sous forme de rémunération, de revenu net provenant d'une entreprise non agricole ou de l'exercice d'une profession pour compte propre (recettes brutes moins les dépenses d'exploitation) et de revenu net provenant d'une exploitation agricole (recettes brutes moins les dépenses d'exploitation, y compris l'amortissement).

**Profession:** Genre de travail que faisait le recensé déterminé par l'indication du genre de travail, la description des fonctions principales et le titre de l'emploi. Les données portent sur l'emploi que le recensé occupait pendant la semaine précédant le dénombrement, s'il avait un emploi cette semaine-là, ou sur l'emploi de plus longue durée depuis le 1<sup>er</sup> janvier 1970, s'il n'avait pas d'emploi cette semaine-là. Les personnes ayant deux emplois ou plus pendant la semaine de référence devaient fournir les renseignements pour celui auquel elles avaient consacré le plus grand nombre d'heures.

**Classification des professions:** Au recensement de 1971, on a utilisé une classification fondée sur la "Classification canadienne descriptive des professions". Cette dernière est formée de groupes de base réunissant les professions de manière à assurer un "certain degré d'homogénéité par rapport au genre de travail exécuté". Bien que le travail exécuté puisse subir l'influence de certains procédés industriels, le classement d'une personne selon son genre de travail est, en théorie, indépendant de l'activité de l'établissement où elle travaille. Dans la plupart des cas, les travailleurs indépendants sont classés dans le groupe de base approprié, tout comme les salariés.

Pour de plus amples renseignements sur la classification et sur les définitions des groupes de base, voir "La classification des professions, Recensement du Canada, 1971", volume I (n° 12-536F au catalogue). Pour les titres des professions correspondant aux codes des groupes de base à quatre chiffres dans ce tableau, voir l'appendice, n° 94-770 au catalogue, ou La classification des professions.

**Nota: Comparabilité avec les recensements antérieurs:** La classification des professions de 1971 diffère grandement des classifications précédentes. Elle est le produit d'une révision complète des anciennes classifications. Par conséquent, il est impossible de faire des comparaisons avec les recensements antérieurs pour l'instant. Un texte spécial sur les tendances paraîtra ultérieurement.

Les estimations de l'erreur quadratique moyenne des caractéristiques données dans ce bulletin n'étaient pas connues au moment de la publication. Elles seront disponibles dans l'introduction de ce volume (n° 94-759 au catalogue). Les utilisateurs désireux de connaître ce renseignement avant la publication du bulletin d'introduction devront s'adresser au Service-utilisateurs du recensement.

### Other forms of publication

In addition to the tabulated results of the 1971 Census published in reports and bulletins, a large number of tables will be issued to users as copies of computer print-outs. These will also be available in microform. A variety of statistical tables may be purchased on computer "summary" tapes for further computer analysis by users. Details of the content, prices, and availability of census tabulations in these output media may be obtained from the User Inquiry Service, Census Field, Statistics Canada, Ottawa K1A 0T7.

### Special tabulations

To the extent that confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the planned tabulation programme. Requests should be sent to the Census User Inquiry Service specifying clearly the precise classifications or cross-classifications and the geographic areas. The exact categories for each characteristic and a rough table layout should be included.

### Maps and geographic files

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Field of Statistics Canada.
